Planning public sector tech
event attendance?

Introduction

Each year we find ourselves adding more dates to our diaries as the number of dedicated public sector technology events rises. We're always looking out for the best events or networking opportunities for our clients that attract a good mix of public sector buyers and suppliers. And, because we're a super kind bunch, we've decided to pull together a list and share it!

This is of course not an exhaustive list, which will undoubtedly grow by the month, please feel free to contribute towards the list and make suggestions, or if you've attended one of these events before and want to share your experience, we'd love to hear from you.
